Each passing term brings new milestones, and it is heartening to see our school community striving for excellence in all spheres - academics, sports and extracurricular activities.

In the past session, our school witnessed several exciting additions. Air conditioners were installed

Our teachers play a crucial role in shaping these young minds with patience and dedication. Together, we work towards a culture of responsibility, teamwork and excellence.

Education is not just about acquiring knowledge; it is about fostering curiosity, resilience, and a spirit of innovation. Our goal is to nurture young minds who will not only excel in their chosen fields but also contribute meaningfully to society. I commend our students for their enthusiastic participation in various activities and our teachers for selecting inspiring themes for school functions.

MESSAGE FROM THE PRINCIPAL

PRINCIPAL
Mrs. SHEENA YADAV

I extend my warmest greetings to you all through this edition of our school newsletter. Each new academic session brings fresh opportunities to learn, grow and excel, and I am immensely proud of the dedication and enthusiasm displayed by our students and teachers alike.

As responsible global citizens, we recognize the urgent need to protect our environment. Our school is committed to raising environmentally conscious students who understand the importance of sustainability, conservation and responsible living. Throughout the school term, students actively

engage in activities promoting waste reduction, tree-planting initiatives and energy conservation. We believe that every small step counts and together, we are striving to create a greener and more sustainable future. In today's digital era, technology plays a vital role in education and everyday life. While it offers immense benefits in learning and connectivity, it is equally important to use it mindfully. Striking a balance between screen time and real-world interactions is essential for overall well-being. I encourage students to use technology as a tool for learning and innovation while also making time for outdoor activities, reading and meaningful face-to-face conversations. Let us be conscious digital citizens who harness technology wisely without letting it overpower our personal growth and relationships.

At Gyan Devi, we believe in fostering a holistic learning environment—one that nurtures not just academic excellence but also creativity, leadership and strong character. The achievements of our students in various fields—academics, sports and cultural activities—are a testament to their hard work and determination.

As we move forward, I encourage each of you to embrace challenges with confidence, remain curious and continue striving for excellence.

Wishing you all a successful and enriching year ahead!
