Message from the Chairman

The qualities—curiosity, resilience and self-discipline—serve as pillars of success for a person. Curiosity encourages critical thinking, creativity and a thirst for lifelong learning. It is an essential trait for academic success and personal growth. Resilience enables us to overcome challenges, navigate setbacks and ultimately achieve success.

Self-discipline is the capacity to regulate one's behaviour, manage time effectively and stay focused on tasks.

At Gyan Devi, we aim to provide a positive and encouraging learning atmosphere to our students. We ignite their curiosity and drive for learning. We help build their resilience and adaptability towards the ever changing world. We believe that education is preparation of life itself. Thus, we focus on developing the personality of the students, moulding their character and developing their mental skills to help them cope with the challenges of the complex world of today. We promote habits that cultivate self-discipline, such as regular exercise, healthy eating, adequate sleep and mindfulness.

As we draw close to the end of another successful school session, I am filled with immense pride and gratitude for the collective efforts of our entire school community. Our students did us proud in all spheres - winning medals at inter-school competitions, getting laurels in academics and excelling in sports. This newsletter provides us with a glimpse of all these activities.

Many congratulations to the staff, students and parents on the successful completion of this session. As we look ahead to the future with optimism and excitement, let us continue to strive for excellence in all that we do and remain committed to fostering a culture of lifelong learning and growth.

God Bless You
